

Laboratory refrigerators

Application

- storage of water and sewage samples, piezometer leachate
- storage of AAS, GC or HPLC calibration standards
- storage of reagents
- chemical storage
- storage of medicines and vaccines

Laboratory refrigerators are equipped with a cooling system and can provide a stable temperature between 0°C ... +15°C.

Calibration

All thermostatic equipment manufactured by POL-EKO-APARATURA can be provided with Calibration Certificate issued by accredited Measurement Laboratory. Detailed information on accreditation is available on website: www.pol-eko.eu.

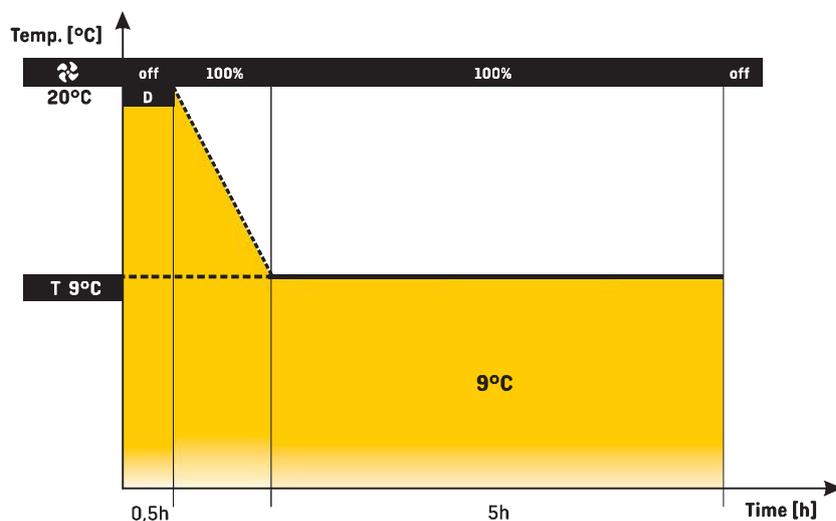

The **BASIC, COMFORT, PREMIUM** models are equipped with a PID microprocessor controller with an LCD graphic display and illuminated touch buttons.

Controller advantages

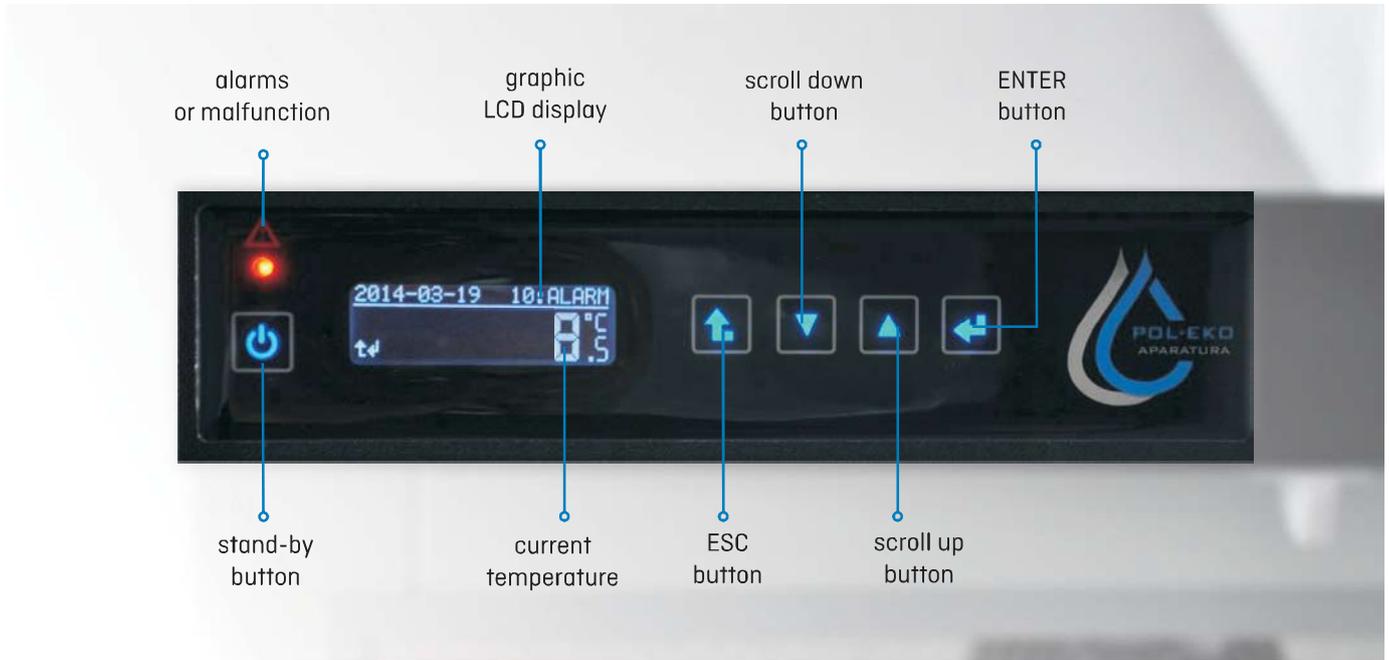

- temperature control
- adjustable start delay feature (1 min...99:59 h)
- operating with temperature priority mode
- overview of set and current parameters while operating
- recording of min, average and max temperature value for each segment
- defrosting function
- audible and visual temperature alarm
- temperature sensor fail alarm
- power failure control system (program continued after restoring power)
- real-time clock
- auto-diagnostic function
- internal memory to store up to 2046 data records
- forced air convection with optional fan speed control (50-100%)
- automatic fan shut-down after completing the program

Detailed description of parameters on page 80.

 - parameter set by the user **D** - adjustable start delay (1 min...99:59 h)
❄️ - fan speed control (option) **T** - set temperature

Control panel

Standard features:

- temperature range 0...+15°C
- quality control protocol (at +4°C)
- operation manual in English
- available menu languages: Czech, English, Estonian, German, Italian, Latvian, Polish, Portuguese, Russian, Spanish
- over temperature protection 1.0 class according to DIN 12880
- open door alarm
- wheels in standard for models CHL 1200 and 1450

RS 232 and USB ports for data transfer

internal LED light

access port: Ø30 mm

wire shelves with slides set for BASIC and stainless steel
wire shelves for COMFORT and PREMIUM models

door lock

solid door

PREMIUM TOP+ version

All the units in TOP+ version are equipped with a PID microprocessor controller with a large (5,7") full colour touch screen, intuitive menu and user friendly software. They can be connected to Ethernet network for remote control from any computer, being one of the greatest advantages.

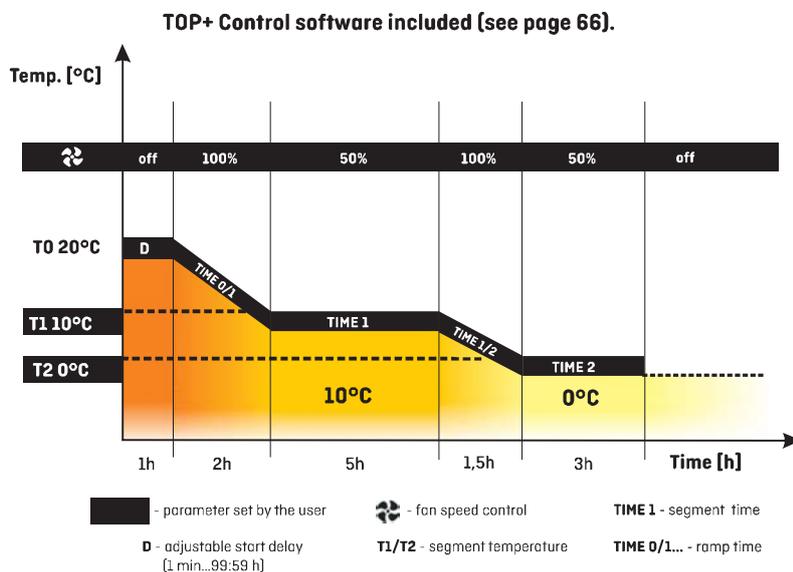

Controller advantages

- multi-segment temperature-time profile (up to 100)
- loop function up to 99 times or endless
- adjustable start delay feature (from 1 min to 99:59 h or date/time)
- Administrator function to manage User accounts
- adjustable hold at set point time for temperature from 1 min to 999:59 h or continuous operating
- access control via login
- 7-days programming
- temperature calibration
- adjustable ramps
- overview of set and current parameters while operating
- recording of min, average and max temperature value for each segment
- possibility of temperature calibration by the user
- audible and visual temperature alarm
- operating in temperature or time priority mode
- defrosting function
- temperature sensor fail alarm
- power failure control system (program continued after restoring power)
- digital timer
- real-time clock
- auto-diagnostic function
- forced air convection with fan speed control (50-100%)
- automatic fan shut-down after completing the program

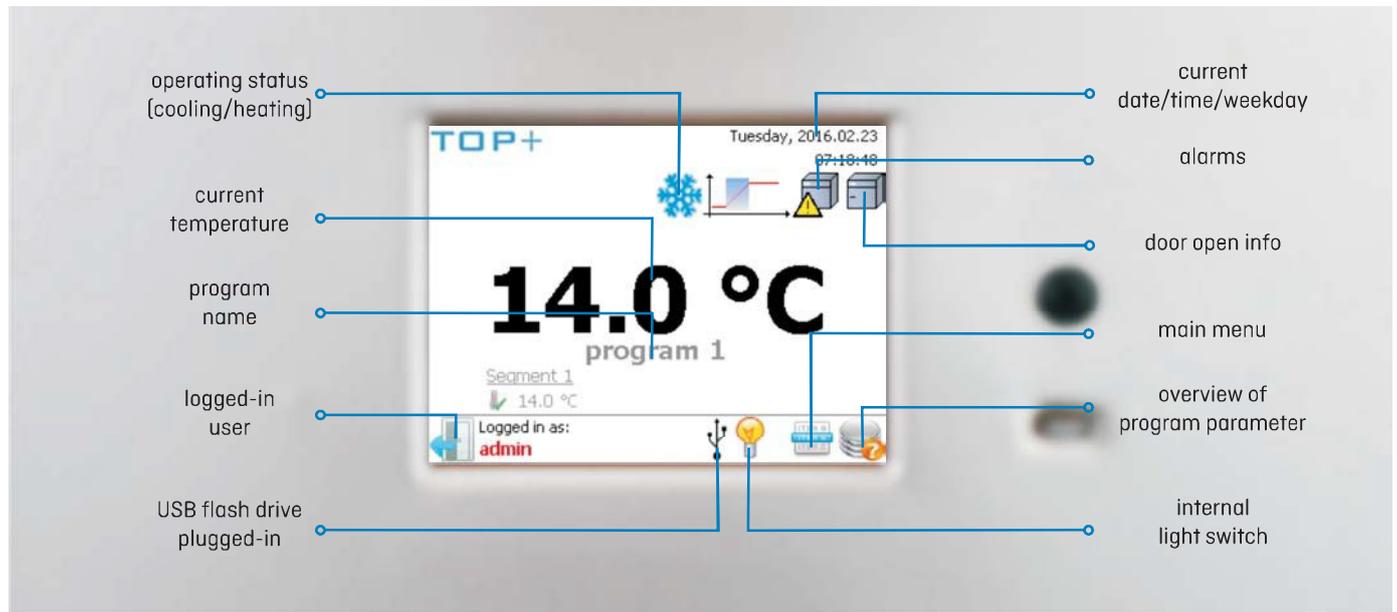

Detailed description of parameters on page 80.

GLP supporting functions

- password protected settings
- 20 user programs memory
- internal memory to store up to 4100 data records for each user, possibility to overview the values on the display or a PC computer in a tabular or graphic form
- USB port to allow direct data recording or transfer to a USB mass storage device
- events registry

Control panel

Standard features

- temperature range 0...+15°C
- Ethernet cable
- TOP+ Control software
- quality control protocol (at +4°C)
- English instruction manual
- available menu languages: Czech, English, Estonian, French, German, Hungarian, Italian, Latvian, Polish, Portuguese, Romanian, Russian, Spanish
- temperature protection 3.2 class to DIN 12880
- open door alarm
- wheels in standard for models CHL 1200 and 1450

door lock

USB port to allow direct recording and data transfer to a USB mass storage device

RS 232 port for data transfer

LAN port for remote control

internal LED light

access port: Ø30 mm
